Infotech Frontend Developer
Applicant Exercise

Estimated time to complete: 3-4 hours

Project:

Design a dashboard to help an executive understand how salespeople are performing at a glance. We have attached a starting point. You may modify the markup as you see fit, however, please do not use any CSS or Javascript frameworks. We estimate it should take 3-4 hours to complete this challenge, but feel free to spend as much time on it as you think is appropriate. Please complete and return an updated html document by 8am the morning of your interview.
